

Student Life DUAL REST

- Features a firm sleep surface on one side and a soft sleep surface on the other side. Let your students choose which side is most comfortable to them.
- Traditional tape edge design
- High density firm foam topper on one side. High density comfort soft convoluted layer on the other side.
- Cyber Safe™ or Integrity 30™ fire barrier
- Full perimeter spring unit – NO foam encasement – get 100% surface support and sleep area not offered by foam encased mattresses. Spring Unit features 18% more coils than industry standard and a heavy duty dual boarder rod system which is much stronger and durable than foam boarders.
- 210 denier navy nylon cover which is fluid proof, bacterial/fungal resistant, non-allergenic, stain/tear resistant, and mold and mildew resistant.
Additional fabric cover options available.
